You acknowledge and agree that Baltic Fund has no responsibility to collect, report or remit any applicable taxes in connection with this Agreement, the ICO, BALT and usage of BALT. 11.2. You shall be solely liable for all tax related penalties, claims, fines, punishments, liabilities or otherwise arising from your underpayment, undue payment or belated payment of any applicable tax. Baltic Fund provides no advice and makes no representation as to the tax implication of any jurisdiction.

12. RISKS

12.1. You should peruse, comprehend and carefully consider or seek legal advice as to the risks described below in addition to the other information stated in this Agreement, the Whitepaper, the Website or elsewhere before deciding to participate in the ICO. Participating in the ICO will be deemed as you having accepted all the risks outlined in this Agreement.

12.2. BALT price may experience extreme volatility. Cryptographic tokens or cryptocurrencies have demonstrated extreme fluctuations in price over short periods of time on a regular basis. You must be prepared to accept similar fluctuations in BALT value. Such fluctuations are due to market forces and represent changes in the balance of supply and demand. Baltic Fund cannot and does not guarantee any market liquidity for BALT. Additionally, due to different regulatory requirements in different jurisdictions, the liquidity of BALT may be markedly different in different jurisdictions.

12.3. While some of cryptographic tokens or cryptocurrencies may have been relatively stable, it is possible that their values may drop significantly in the future, which may deprive Baltic Fund of sufficient resources to continue to operate.

12.4. Cryptocurrencies are being, or may be, scrutinized by the regulatory authorities of various jurisdictions. Baltic Fund may receive queries, notices, warnings, requests or rulings from one or more regulatory authorities from time to time, or may even be ordered to suspend or discontinue any action in connection with Baltic Fund, as well as be impacted by one or more regulatory inquiries or regulatory actions, which could impede or limit the ability of Baltic Fund to further

conduct business. The development, marketing, promotion or otherwise of Baltic Fund may be seriously affected, hindered or terminated as a result.

12.5. Advances in cryptography, such as code cracking or technical advances such as the development of quantum computers, could present risks to all cryptocurrencies, including BALT. This could result in the theft, loss, disappearance, destruction or devaluation of BALT. It is impossible to predict the future of cryptography or the future of security innovations to an extent that would permit Baltic Fund accurately guide the development of BALT to take into account such unforeseeable changes in the domains of cryptography or security.

12.6. Baltic Fund cannot guarantee the software used by Baltic Fund to be flaw-free. It may contain certain flaws, errors, defects and bugs, which may disable some functionality for users, expose users' information or otherwise. Such flaw would compromise the usability and/or security of BALT and consequently bring adverse impact on the value of BALT.

12.7. Ethereum is an open source project and supported by the community. Baltic Fund does not lead the development, marketing, operation or otherwise of Ethereum. Anybody may develop a patch or upgrade of the source code of Ethereum's source without prior authorization of anyone else. The acceptance of Ethereum patches or upgrades by a significant, but not overwhelming, percentage of the users could result in a "fork" in the blockchain of Ethereum, and consequently the operation of two separate networks and will remain separate until the forked blockchains are merged. The temporary or permanent existence of forked blockchains could adversely impact the operation and the market value of BALT and in the worst-case scenario, could ruin the sustainability of BALT. While such a fork in the blockchain of Ethereum would possibly be resolved by community-led efforts to merge the forked blockchains, the success is not guaranteed and could take long period of time to achieve.

12.8. The Ethereum source code and the software used by Baltic Fund could be updated, amended, altered or modified from time to time by the developers and/or the community of Ethereum. Nobody is able to foresee or guarantee the precise result of such update, amendment, alteration or modification. As a result, any update, amendment, alteration or modification could lead to an unexpected or unintended outcome that adversely affects BALT's operation or market value.

12.9. The blockchain rests on open-source software. Regardless of Baltic Fund's effort to keep the blockchain secure, anyone may intentionally or unintentionally introduce weaknesses or bugs into the core infrastructural elements of Baltic Fund. This could consequently result in the loss of BALT held by you.

12.10. The loss or destruction of a private key required to access BALT may be irreversible. You are required to safeguard the private keys relating to your own BALT wallets. To the extent such private key is lost, destroyed or otherwise compromised, neither Baltic Fund, nor anyone else will be able to access the related BALT.

12.11. BALT is not a currency issued by any individual, entity, central bank or national, supra-national or quasi-national organization. The circulation and trading of BALT on the market depends on the consensus on its value between the relevant market participants. Nobody is obliged to redeem or purchase any BALT from any user or BALT holder. Nor does anyone guarantee the liquidity or market price of BALT to any extent. Baltic Fund has no control over market price or liquidity of BALT once BALT start to trade in the open market.

12.12. It is possible that Baltic Fund's product and services or BALT will not be used by a large number of individuals, businesses and other organisations and that there will be limited public interest in the creation and development of its functionalities. Such a lack of interest could impact the development of Baltic Fund's business.

12.13. Baltic Fund and the affiliated services, as developed and launched, may not meet your expectations. You acknowledge that Baltic Fund services are currently under development and may undergo significant changes before release. You also acknowledge that any expectations regarding the form and functionality of Baltic Fund services held by you may not be met upon its release for any number of reasons, including a change in the design and implementation plans and execution of the implementation of Baltic Fund services. Furthermore, you acknowledge that Baltic Fund projects may never be fully completed or released.

12.14. You understand and accept that hackers or other groups or organisations may attempt to steal BALT or otherwise interrupt or cease Baltic Fund's business or usage of BALT.

12.15. Except for historical information, there may be matters in this Agreement, the Website, the Whitepaper or elsewhere that are forward-looking statements. Such statements are only predictions and are subject to inherent risks and uncertainty. Forward-looking statements, which are based on assumptions and estimates and describe Baltic Fund's future plans, strategies, and expectations are generally identifiable by the use of the words 'anticipate', 'will', 'believe', 'estimate', 'plan', 'expect', 'intend', 'seek', or similar expressions. You are cautioned not to place undue reliance on forward-looking statements. By its nature, forward-looking information involves numerous assumptions, inherent risks and uncertainties both general and specific that contribute to the possibility those predictions, forecasts, projections and other forward-looking statements will not occur. Those risks and uncertainties include actors and risks specific to the industry in which Baltic Fund operates as well as general economic conditions and prevailing exchange rates and interest rates. Actual performance or events may be materially different from those expressed or implied in those statements. All forward-looking statements attributable to Baltic Fund or persons acting on behalf of Baltic Fund are expressly qualified in their entirety by the cautionary statements in this section. Except as expressly required by the applicable law, Baltic Fund undertakes no obligation to publicly update or revise any forward-looking statements provided in this publication whether as a result of new information, future events or otherwise, or the risks affecting this information. None of Baltic Fund, its officers or any person named in this Agreement, the Website, the Whitepaper or elsewhere with their consent, or any person

involved in the preparation of this Agreement, the Website or the Whitepaper, makes any representation or warranty (express or implied) as to the accuracy or likelihood of fulfilment of any forward-looking statement except to the extent required by law.

12.16. The Internet industry is comprised of a number of participants and is subject to rapid change and competition Baltic Fund faces from other organisations, some of which may have greater financial, technical and marketing resources. Increased competition could result in under-utilisation of employees, reduced operating margins and loss of market share, especially Baltic Fund's first mover status. Any of these occurrences could adversely affect the Baltic Fund's business, operating results and financial condition. The possibility remains that the fundamental business model may not achieve any traction due to an existing or new entrant offering a similar solution or that the general public do not see it as part of their future. The targets and business valuation inherent in the Website, the Whitepaper or elsewhere are based on Baltic Fund's management personal experience, contacts and feedback from the market. There can be no assurance that these reflect the actual reality of the opportunity or that will be able to compete successfully against current or future competitors. You are encouraged to seek professional advice when assessing the understanding of Baltic Fund's business model metrics and projected returns and values as presented by directors in this Agreement, the Website, the Whitepaper or elsewhere.

12.17. You acknowledge and agree that in no event shall Baltic Fund be liable or responsible for any loss in any way arising out of your participation in the ICO, receiving and holding BALT, or use of the Website and Baltic Fund is hereby released by you from liability for any and all such loss.

13. ANTI-MONEY LAUNDERING POLICY

13.1. Baltic Fund reserves the right to conduct "know your customer" procedure and any other kind of customer due diligence on you at any time (including after the close of the ICO). If Baltic Fund discovers your purchase of BALT violating this Agreement or any anti-money laundering, counter-terrorism financing or other regulatory requirements, your purchase of BALT under the ICO shall be invalid with retroactive effect and Baltic Fund shall be entitled to immediately terminate this Agreement with you, deny your access to the ICO, reject delivery of any BALT and request return of any delivered BALT, irrespective of any payment that you could have made.

13.2.
